## 12. Further Comments

Woomera Area School was built in the early 1950's to accommodate children of personnel involved in various rocketry projects. The school gradually expanded as Woomera grew. By the late 1960's the school was effectively three schools. – a Junior Primary, Primary and High School – with a total enrolment of over 1200. The current school has most of the buildings occupied, albeit for different purposes. The history of the Woomera Township is very interesting and the township boasts two museums and a rocket park.
